

# Axel U. J. Lode

DeFi, Oracles, Data Specialist

- ✉ Schallstadt/Freiburg, Germany
- ☎ +49 179 460 4623
- @ auj.lode@gmail.com

## Mindset

- 🔧 Ownership
- 🎓 Scientific Rigor
- ✓ Data-Driven Decisions

## Leadership

- 👥 Stakeholder Expectation Management
- 📋 Technical Product Management
- 🎓 Coaching & Mentoring
- 💬 Communication

## Programming

- 🔗 Go, C, Rust / Anchor, Fortran
- 📄 TypeScript, Solidity
- 🐍 Python, Bash

## Infrastructure

- 🐧 Linux, Containers, Virtualization
- ☁ GCP, Azure, Orchestration
- 📋 Ansible, gitOps, IAC
- ☁ Observability, Monitoring

## Professional Summary

*Ex-Quantum Scientist Yock for Data, Blockchain, Infrastructure*

- Spiced with two decades of scientific research experience
- Excels in highly available blockchain infrastructure
- Breathes data science, quantitative finance, AI/ML & quantum Physics
- Cherishes integrity and truth secured by (blockchain) technology
- Drives 2000+ on-chain data feeds (zero-day Chainlink and Tier-1 Pyth oracle)

## Professional Experience

01/2023 – Present	<b>Head of Decentralized Finance</b>	Blocksize Capital GmbH
	<ul style="list-style-type: none"><li>• Architected highly-available hybrid cloud (GCP K8s) &amp; baremetal infrastructure supporting oracle networks like Chainlink &amp; Pyth</li><li>• Infrastructure automations (Ansible) for 20+ baremetal servers on 10+ protocols</li><li>• Implementation of observability (Kube-prometheus-stack) and on-call-rotation</li><li>• Refinement of data anomaly detection for algorithmic price feed accuracy</li></ul>	
03/2022 – 12/2022	<b>Lead Quantitative Developer</b>	Blocksize Capital GmbH
	<ul style="list-style-type: none"><li>• Data product stakeholder management and requirements engineering</li><li>• Refined backend software development and release processes</li><li>• Design and development of anomaly filter algorithms, readying the data origination in Pyth's and Chainlink's oracles</li></ul>	
09/2021 – 03/2022	<b>AI Researcher</b>	Lehner Investments
	<ul style="list-style-type: none"><li>• Machine learning for automated investments backed by price and sentiment data</li><li>• Design of ETL pipelines and feature engineering for real-time processing of data streams</li></ul>	

## Speaking Engagements

05/2025	Deloitte FinTech Day
10/2024	Chainlink SmartCon
09/2023	Chainlink SmartCon
07/2023	DeFi Talents Workshop Organizer
11/2022	DeFi Talents Guest Speaker
06/2022	ETH Frankfurt Meetup
05/2022	DeFi Talents Guest Speaker
05/2022	HBI Forum Hamburg

## Selected Projects / Hackathons

2025	<b>micaEur (Solana Token2022)</b>	Solana Breakout Hackathon
	Scope: MiCA-compliant stablecoin prototype featuring on-chain KYC/AML oracles, freeze/seize controls, and proof-of-reserves. Code: <a href="https://github.com/BSC-aujl/micaEur">github.com/BSC-aujl/micaEur</a>	
2023	<b>RaCoTo (ReFi token)</b>	Chainlink Hackathon
	Scope: Trust-minimized rainforest conservation system using satellite imagery and oracle attestations. Recognized in: Chainlink Spring 23 Hackathon, Chainlink Constellation Hackathon 23	

# Axel U. J. Lode

DeFi, Oracles, Data Specialist

## Blockchain

- Oracles:
  - ✓ Chainlink, Pyth, Band
  - ✓ API3, Tellor, Supra
  - ✓ Space and Time
- Validators:
  - ✓ Solana, Pyth, Supra, Band, Polygon
- RPCs:
  - ✓ Ethereum, ZK-Sync Era
  - ✓ Solana, Avalanche
  - ✓ Polygon

## Academic Metrics

- h-index: 30
- Citations: 2000+
- Publications: 50+
- Projects: 15+

## Repositories

-  [github.com/BSC-aujl](https://github.com/BSC-aujl)
-  [github.com/aujl](https://github.com/aujl)
-  UNIQORN Project

## Awards & Grants

-  Austrian Science Fund Grant (€390k)
-  HPC Resources Grant (€100k/year 2019 – 2022)
-  Springer Thesis Award (2013)
-  Dr. S. Bernthsen Prize (2009)

## Languages

-  German (native)
-  English (professional)
-  French (basic), Russian (elementary)

## Academic Experience

- |             |   |  |
|-------------|---|--|
| 2019 – 2022 | <b>Junior Research Group Leader</b> University of Freiburg                | <ul style="list-style-type: none"><li>• Machine learning and statistics approaches for optimally using observations of complex quantum systems</li><li>• Managed €100k/year of high-performance computing resources</li><li>• Deployed €390k research grant</li><li>• Teaching and mentoring M.Sc. and Ph.D. students &amp; their theses</li></ul>   |
| 2017 – 2019 | <b>Principal Investigator</b> University & Technical University of Vienna | <ul style="list-style-type: none"><li>• Research applying state of the art applied math and theoretical physics to understand experimental observations</li><li>• Deployed €100k/year of high-performance computing resources</li><li>• Attracted €390k research grant for investigating machine learning for quantum information readout</li><li>• Teaching and mentoring B.Sc. and M.Sc. students &amp; their theses</li></ul> |
| 2013 – 2017 | <b>PostDoc</b> University of Basel  | <ul style="list-style-type: none"><li>• Development and applications of novel numerical methods for condensed matter systems</li><li>• Collaborations with many internationally recognized experimental and theoretical physicists that used or contributed to the developed software</li></ul>  |

## Education

- |             |   |   |
|-------------|---|---|
| 2009 – 2013 | <b>Ph.D. in Physics</b> Ruprecht-Karls-Univ. Heidelberg               | <ul style="list-style-type: none"><li>• Magna cum laude (1.0), recognized with the Springer Thesis Award for outstanding thesis</li><li>• Developed and distributed software for deploying high-performance computing for quantum systems</li><li>• Computed first-ever numerically exact simulations for interacting quantum particles</li></ul> |
| 2002 – 2009 | <b>Physics Diploma (M.Sc. equiv.)</b> Ruprecht-Karls-Univ. Heidelberg | <ul style="list-style-type: none"><li>• Recognized with the Dr. S. Bernthsen Prize for outstanding thesis</li><li>• Application of quantum chemistry methods to model ultracold quantum systems.</li></ul>  |
